The Politics of vengeance--Small Beer Style

I don’t keep a memory for
these things, so what-
 ever’s to be sworn

 is dodging just
 sincerity, and

although scattered
lineaments dance

through like ghostly
scarecrow limbs, and yes

 it did involve so
 and so about some
 such wherein what

 was said may be
   what I'm to damn

   or support, the
   in and out

     side of a dead
     man's glove.
